#### BLANK ORDERS FOR COAL.

L. A. LA GRANGE BEFORE THE COMMIS-SIONERS OF ACCOUNTS.

HE ADMITS NOT BEING PRESENT WHEN COAL FOR THE FIRE DEPARTMENT WAS WEIGHED-LEFT THE CONTRACTOR TO FILL

IN THE FIGURES.

Commissioners of Accounts Terry and Dennis, who have been investigating charges implicating Louis A. La Grange, weighmaster of the Fire De partment, in irregularities concerning the weighing of coal purchased by the city for the use of the Fire Department, gave a public hearing and exam-ined a number of witnesses yesterday. The weighmaster is a brother of General O. H. La Grange, until recently president of the Fire Board, and was appointed soon after the General became a Commiser under Mayor Strong.

It was La Grange's duty to certify in duplicate to the correctness of the weighing of coal. One of the certificates went to the Fire Department; the other was retained by the coal dealer. La Grange was expected to be present when coal was weighed and certify to tosults performed under his eye and known to him to be accurate. He admitted to the Commissioners. Mr. Terry said yesterday, that he had signed these contracts in blank and had given them to the contractor to fill in as he chose, La Grange meanwhile absenting himself from the

weighing place.

The first witness was John T. Mayers, of No. 256 West Forty-first-st., a driver in the Fire Department, who was also detailed to assist La Grange in weighing coal. Witness said that o attend a private hearing before the Commissioners Messrs. La Grange and Winant called at his house and told him not to be slarmed. Mayers said that he weighed coal furnished the Fire Department by Winant & Son in December and January. He de-clared that Winant's wagons were marked incorrectly as to their weight in several cases—in one case the city lost just 400 pounds of coal every time the wagon referred to was weighed. All this coal

the wagon referred to was weighed. All his coal, the witness said, was charged to the city under the direction of La Grange, without having the wagons reweighed. Mayers said that he did not know of the false weight of the wagons until his attention was called to the matter by employes of the Commissioners of Accounts. La Grange, he said, had told him that the weights of the wagons were all right. Eugene Shepperd, of No. 343 West Twenty-thirdst., assistant examiner in the office of the Commissioners of Accounts testified that on the morning of January 14 he was at West Fifty-fifty-st, and the North River, one of the depots from which coal was delivered by Winant. On that occasion coal was delivered by Winant. On that occasion coal was delivered to Engine Company No. 56, at No. 120 West Eighty-third st.

Louis A. La Grange, against whom the charges are made, was then called. He said he had been weighmaster of the Fire Department for one year. He received \$4 a day and \$2. extra for acting as assistant purchasing agent. He admitted that he had green blank certificates to Mr. Winant to befilled in by the latter as to the weight of coal when he (La Grange) was not present. This, he admitted, was especially so at Pier No. 7. East River. Certificates as to the weight signed by La Grange. On the day in question he was in City Island.

In explaining his conduct the witness said:

In explaining his conduct the witness said: "When a barge load of coal arrives requisitions come in from different engme-houses. To enable them to get the coal promptly and without delay I send these certificates, signed in blank, to the Winsants, and they fill them out. I believe that they put the correct weight on them.

Mr. Sheppard, assistant examiner of accounts, testified that when coal was delivered to Engine company No. 56 on December 28, La Grange was in a saloon in Third-ave drinking. Mr. Winant filled out the blank certificate.

The testimony will be presented to the Mayor and he will take whatever action in the matter he thinks best.

The chairman of the Committee on Annual Report is Magistrate Kudlich. His instructions to Mr. Telbetts stirred up certain members of the Board, and particularly Megistrate Brann, who contended that such records as required were not in consonance with the principles of justice, and also expressed the belief that Mr. Kudlich was acting in the interests of the A. P. A. Mr. Brann finally prepared a preamble and set of resolutions directing the secretary to withdraw the obnoxious letter, and to countermand the request he had made.

The resolutions were submitted at last night's meeting. A strong division of obtainon was shown there, and a vote was taken, but ultimately the resolutions were carried. The communication will now be withdrawn and peace will be restored to the Board's councils.

To one familiar with the methods of the "greengoods" swindlers, the circular sent out by "The News Clipping Company" is a strong reminder of the letters which the swindlers have sent to every part of the country to lure dupes, but instead of asking people to come to the city and buy counterfeit money at cheap rates the circular asks them to send \$2.85 for a "correspondent's case" for dating and numbering newspaper clippings. There is an offer, tempting enough to many a poor family, to pay money later for the clippings, with the declaration that "many of our members who devote their exclusive time and attention to this business earn from \$15 to \$20 weekly." Care is taken to state that the concern can pay only for clippings received from a "duly authorized member," and clippings cannot be sent in payment for the "case." There is the suggestive advice in the circular to "beware of imposters," and talk about the necessity of not becoming "the prey of fraudulent and unscrupulous concerns."

To readers of The Tribune who might be fooled by the circular into believing that they would get any adequate return for the \$2.8 asked for by the concern, the best advice may be given by one sentence taken word for word from the circular itself. "Therefore, do not be deceived by spurious and interpondent schemes."
